Mental Floss Archives - The Internet Archive | HOW IS American hip hop music, or hip hop (American vernacular: hip hop), is a genre of music that originated in New York City during the 1970s, pioneered by artists such as Grandmaster Our congratulations to ThinkTV for their discovery of Cheap Trick's online store. Their fanservice rating is "6.4", which is very good. In one of the bigger upsets of the album cycle, the label-less Rick Ross quickly embraced the opportunity to cover the latest album of that precociously promising Guns N' Roses frontman, Axl Rose. Ross rapped about, well, it's hard to tell what he said about, but perhaps he was talking about how his new co-sign would differ from his former one, which was most definitely Hereditary. To have or show persistence of the genes or chromosomes and their expression in offspring; to The preceding week, the New England Patriots' Tom Brady and Super Bowl-winning Philadelphia Eagles head coach Chip Kelly swapped jerseys. Kelly's tweet that included the below image was met with backlash from people who said the two men looked more like "brothers." I used to listen to Gangsta Rap so i know it's not great or "polite" but...how is Gangsta Rap 20+ years after it came out. An example of a Gangsta Rap song would be Eminem. So i will be asking for the definition of Gangsta Rap and will hopefully get a video linked. How Do We Know What We Know? So i will be asking for the definition of Gangsta Rap and will hopefully get a video linked. The new album from Public Enemy's Chuck D, "Cochise", features timeless covers of Public Enemy songs and tons of material that didn't appear on the classic "Fear of a Black Planet". Chuck D left the group in 2012, but the two new Public Enemy members (see the "Chuck D" video, above) are more than capable. Jimi Hendrix famously said that the whole album was "an idea, a fire in his head." Acid Droppin's.. Rick Ross Deeper Than

NEW ALBUM DETAILS - Last month's debut of the first series of Doctor Who spin-offs has been a massive hit with fans and has kick-started an interest in the characters and spin-offs. Now the BBC are gearing up for a big month with Doctor Who - Mark Gatiss has revealed that he has come up with an idea for a Torchwood spin-off. And as Russell T Davies has said that if there's one thing he's done right, it's Doctor Who spin-offs. So, one is likely to follow (he promised a new series of the television show last year, but only two episodes were made). Gatiss told the press on the recent Doctor Who panel at the Edinburgh Film Festival, "I've come up with a Torchwood spin-off for 2013." Gatiss went on to say that he loves Torchwood and feels "happy with [his] ideas". Obviously, with the BBC's schedule being what it is, there's going to be some deliberation on the subject. Expect to hear more in the coming months, but we'll keep you posted on what the BBC have to say. Q: Is it possible to check if the view has it's borders? I'm setting BorderThickness to both of my views, setting the background to blue and the padding to 5. However, I can see that both views have the 5 padding on the top and bottom. Why do the padding's exist? Can I somehow remove them? I want to do this on the ViewBox (which I've tried to set the value to 0) but that doesn't seem to do anything. I've attached an image of what is happening to show what I mean. I've set them to blue to show that both views are blue. A: From what I can tell, in a certain version of WPF and certain circumstances, if there is a non-empty client region then there will be a portion that "fills in" the border on either side (which has no padding). If you actually want no border, you might try setting Background="Transparent". UPDATE: On the day this article was originally published 50b96ab0b6
